Re: Pembroke Insurances Ltd
Testimonial

To Whom it May Concern,

I confirm that Gordon White Consulting Engineers moved their Professional Indemnity, Public Liability and Employers Liability Insurances to Pembroke Insurances this year.

Our primary clients have very high standards for the level of Professional Indemnity Insurances to be provided by their Engineering Consultants and Pembroke Insurances were able to arrange insurances to meet these standards. I can commend Graham Weir and the team at Pembroke Insurances in representing GWCE in obtaining the best possible Professional Indemnity cover and with a premium that represented a saving of over 10% when compared to our premium last year. As a small practice with high insurance requirements such savings have a large impact in the cost of running the business.

Pembroke Insurance also arranged our Public Liability and Employers Liability Insurance at a premium that was lower than the previous year.

I am very happy with the service provided by Pembroke Insurance and have and will continue to recommend them to professional colleagues.

Yours Sincerely,

Gordon White

Chartered Engineer, Director
